Reasons for allowance

The following is an Examiner's Statement of Reasons for Allowance:

None of the prior art discloses or suggests a process and apparatus for cleaning of a milking plant for milking animals wherein a pressure regulating means capable of arranging a lower fluid pressure in the milk line system than in the milk storage means, when milk storage valve means are closed.

The cited closest art Branton (4,168,677) discloses to use a vacuum pump which would produce reduced pressure in the milking lines but fails to connect the milking line to the milk storage tank during the cleaning.

Brown (4,168,677) discloses to use a valve during the cleaning process but fails to reduce the pressure in the milk lines, since during the cleaning process vacuum pump is switched with a pump which increase the pressure in the milk lines.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
